4.

****

STEPS:

1. sudo npm install
2. sudo node server.js

****

NOTE:

if you get the following error upon installation
{ [Error: Cannot find module '../build/Release/bson'] code: 'MODULE_NOT_FOUND' }
 js-bson: Failed to load c++ bson extension, using pure JS version

search for "require('../build/Release/bson')" in the Assignment5 folder and
replace all instances with "require('../browser_build/bson')"

Also, it can be ran on the live version at http://arcane-atoll-3703.herokuapp.com/

****

DOWNLOADS:

you may have to install connect-flash for the passport authentication
this can be installed using "npm install connect-flash"
for more information see:
https://github.com/jaredhanson/connect-flash/blob/master/README.md
